Regional Telecom Reports Available Through HKITF Webs

The Hong Kong Information Technology Federation (HKITF) has established a iten agreement with the regional telecom research company, Telecom Research Asia-Pacific Ltd (TRAP), whereby TRAP's Country Telecom Reports can now be obtained through the HKITF Website at www.hkitf.org.hk. Companies looking for an in-depth and up-to-date account of the telecom industry in any of 12 Asia-Pacific countries can receive the 250-page reports virtually instantaneously over the Internet through the HKITF. There are 20 sections in each report which cover all the main telecom industry segments, including an industry overview, fixed line and mobile usage, the Internet, mobile data, broadband, e-commerce, trunked radio, pay-TV and the regulatory environment. Extensive information about the country's domestic and international telecom infrastructure is also included. Historical data is presented for the past three years while forecasts are made up to 2005. Information is updated continuously and orders are fulfilled with the latest version of each report every time.

Priced at US\$175 per country, the reports represent a remarkably cost-effective means by which companies can obtain insights into the telecom industry in any major Asia-Pacific country.

IT Solution Directory

HKITF has received support from the SME Development Fund administered by the Trade and Industry Department (TID), HKSAR Government to launch an IT Solution Directory project in November 2002. The Hong Kong Productivity Council is responsible for project implementation. This Directory has captured solutions from all IT solution providers in Hong Kong. We are accepting registration from IT Solution Providers. Please visit <http://www.itsolutiondirectory.org.hk> or <http://www.itsolution.org.hk> sign up.
